\*MicroHalt products each have an EPA registered antimicrobial and/or antibacterial agent incorporated into the plastic/lacquer that protects the item itself by suppressing growth of bacteria. The EPA master label for the registered additive states that the antimicrobial and/or antibacterial agent is approved for inclusion into the polymers/lacquers from which the products are manufactured for protection of those products themselves. The antimicrobial and/or antibacterial properties do not protect users or others against bacteria, viruses, germs or other disease organisms. For more information on U.S. regulations on antimicrobial and/or antibacterial agents and treated products, visit [www.epa.gov](http://www.epa.gov)  
All food-contact products have undergone FDA testing and passed 21 CFR 177.1520 & 21 CFR 177.1630. The EPA registered additive has been approved for use in the application of food-contact plastic products.
